

# Eraldehyde™

## Eliminates Formaldehyde Vapors

Removes Formaldehyde Contamination From Your Air

### Eraldehyde™

Model-100 Air Mover

Two E-100 Cartridge Pads

Direct, On-line Pricing:

- <http://shop.microsweep.com/>
- M-100 with two Pads: \$ 245.95
- Replacement E-100 Pads: \$ 75.00
- Plus tax and shipping

Eraldehyde™ removes formaldehyde from breathable air in your living area while people, pets, and plants are present.

### Laboratory Results Formaldehyde Reduction

### The Only Solution for Travel Trailer Formaldehyde

- Eraldehyde™ chemical cartridge pads clean air passing through the air mover.
- Safe to use while you, your pets and plants are breathing the same air.
- Does not accumulate formaldehyde fumes. Chemically neutralizes them.
- Run only when you smell fumes. Each cartridge protects up to one year.
- Turnover of medium size room air every two hours.
- Model-100 weight 8.5 lbs. 10.25"(H) X 14.75"(W) X 10" (D).
- 3 speeds, 120 volts, AC, 60 hz. Cartridge change reminder built into air mover.
- Two Eraldehyde™ chemical cartridge pads included with air mover.
- Patent pending pads use valuable chemicals to protect you.
- Additional cartridge pads available for purchase on-line if needed.
- Model-100 shown here has an improved, thicker cartridge pad, and a smaller, more affordable air mover than the model tested by CDC-NASA (see below).

### Tested by NASA & CDC as Safe and Effective

- During 2009 the Center for Disease Control sponsored an evaluation run by NASA to assess the effectiveness and safety of 16 different devices to reduce indoor concentrations of formaldehyde.
- The Eraldehyde™ unit with its chemically treated cartridge was the most efficient in percentage reduction of formaldehyde vapors and did not generate other toxic contaminants.
- Eraldehyde™ is designed to run periodically an hour a day or when the occupant smells formaldehyde. NASA ran the unit continuously for 13 weeks (28,000 hours) but its efficiency only gradually decreased by 50% from lack of dust load cleaning.
- Eraldehyde™ was proven safe, and proven to be more effective than all the other technologies and devices tested.
- The full CDC-NASA report (12.3 mb) may be downloaded from the CDC website <http://www.cdc.gov/nceh/ehhe/trailerstudy/assessment.htm#final>.
